

Getting the training from RGR Sidhhanthi College of Education was a life changing experience for me. I received constant support and guidance from my mentors which really helped me a lot to enhance my teaching. Ratna Swarupa ma'am is in my view a brilliant principal and an excellent motivator. I would like to mention that it was the most enduring experience I ever got. It is definitely going to be useful in my life. Classmates from varied backgrounds and cultures, positive classroom environment and team based teaching learning approach carved the teacher in me. The gradual increase in confidence is the result of all the experience at RGR Siddhanthi College of Education.
